

This is an extremely short document on Ariez, otherwise known by Kaitlyn, or more recently, Noelle (not the Virtubrick Noelle associated with XlXi), who is closely affiliated with revivals such as Rolaro, Revsim, Vortexi, Madxka (?), and various others.

For now I'm not going to write a lot on Noelle, but he owns a account known as @intelmetool on Twitter. This account has many questionable posts, some are even downright nauseous and disgusting.

Note: All archived links in this document **CONTAIN PORNOGRAPHIC CONTENT** and solely exist to provide proof of this actually happening.
